

## RURAL COMMUNITY ENERGY FUND

### Magic Map Guide

Go to [www.magic.defra.gov.uk](http://www.magic.defra.gov.uk)

1. Click 'get started'
2. On the left side of the page, expand 'administrative geographies', and then in the drop down expand 'other administrative boundaries'
3. Select the red tick box- 'rural areas within local enterprise partnerships'
4. Zoom in to the area you are interested in, click the 'identify' icon at the top of the webpage and then click on the area to determine whether it is considered rural. Defra have suggested zooming into street level, or even clicking the exact building to get the most accurate result.
5. If an area reads 'no features found' in the pop up box, this is NOT considered to be rural. If an area includes a LEP name (ie North Eastern), then this area IS considered rural.
6. You will find that some areas will read 'to be confirmed on application'. These areas have been manually determined by Defra as unique and may need further investigation to classify them as rural or urban.
